

Breast Surgery

Introduction

The Cambridge Breast Unit provides assessment and treatment for a wide range of breast diseases, including breast cancer. There are multiple different medical professionals working within the Breast Unit. Breast Surgeons, Breast Radiologists, Breast Oncologists, Specialist Breast Doctors, Breast Care Nurses, Mammographers, Assistants, Administrative Staff and Medical Secretaries all work within the unit to provide a comprehensive holistic approach.

Guidance for Patients

The below websites contain the information leaflets and advice that we give out in our clinics.

What should I do if my health is deteriorating?

If you have been referred to the Cambridge Breast Unit and are awaiting an appointment, please contact your GP if you feel that your condition is deteriorating. If you have already been seen by a clinician in Breast Unit and are awaiting further investigation or treatment then please contact the department directly using the details below.
