

Orthopaedic Service – First Outpatient Appointment

Introduction

The Covid pandemic has had a significant impact on the NHS ability to provide routine elective services. We recognise that patients are waiting longer than we would all like and it is not always possible to identify when treatment will take place.

Waiting Times

As a guide, referral to treatment waiting times are available on the NHS [My Planned Care Website](#).

Guidance for Patients

Conditions Treated

- Hip
- Knees
- Spinal
- Hands
- Fractures
- Foot and ankle
- Shoulder and elbow
- Trauma
- Paediatric T&O

Procedures Performed

Our fantastic staff have 100's of years of collective experience in trauma & orthopaedics. We have a dedicated team of 12 full time substantive consultants and three part time consultants providing paediatric orthopaedic services in collaboration with Birmingham Children's Hospital, each having an area of specialism and expertise.

We have various other specialist roles in the MOC including nurse consultant, advanced nurse practitioner, and physician associates. Before you come in for your appointment with us, here's some information about our team.

At the Midland Orthopaedic Centre we offer a range of unique adult and paediatric orthopaedic services and we are proud to boast some of the best clinical outcomes in the country and have a passion for developing our services listening to patient feedback. Our waiting times are consistently in the top 10 waiting times in the country across all our different sub-specialisms.

My Planned Care Patient Information Platform

What should I do if my health is deteriorating?

The referral from your GP will have been reviewed and triaged by the team to grade your clinical priority based on the information in the referral.

If you are concerned that your condition or symptoms are deteriorating since you were referred to us, please contact the department. You will be asked the detail the changes in your condition/symptoms since seeing your GP at the time you were referred, and this will be passed to the clinical team will re-assess your priority.

In the case of needing emergency care or urgent review, please contact 111 or your own GP.
