NHS Foundation Trust

Cardiology – Interventional Cardiology

The COVID-19 pandemic has had a significant impact on the NHS' ability to provide routine elective services. We recognise that patients are waiting longer than we would all like and it is not always possible to identify when treatment will take place. This document provides you with information on how you are able to support yourself while waiting to attend the hospital. The guidance has been written by Clinicians who are responsible for your care.

Guidance for Patients

Please read your admission letter carefully before you attend the hospital and follow the guidance on this letter.

Further information about your procedure is available on the Bristol Heart Institute website:

<http://www.uhbristol.nhs.uk/patients-and-visitors/your-hospitals/bristol-heart-institute-clinical-services/cardiology/>

What should I do if my health is deteriorating?

GP surgeries are still open

Please contact your GP surgery for advice if you feel your condition is deteriorating. GP surgeries are still open but may be working differently to how they did before the COVID-19 pandemic.

GP surgeries can contact the Bristol Heart Institute for advice if needed.

Urgent Health Advice

For urgent health advice, when it's not an emergency, please call 111 from any landline or mobile phone. You can also visit www.nhs.uk. The NHS 111 service is available 24 hours a day, seven days a week.

Life Threatening Emergencies

For something life threatening – please dial 999.
